Bitdefender®
FAMILY PACK

BADR

You make your family happy. We keep you all safe!

Bitdefender Family Pack secures all Windows, macOS, Android, and iOS devices in your home to keep your family safe across all operating systems. It includes Bitdefender VPN and Bitdefender Safepay for your privacy, and Bitdefender Parental Control for your children's safety.

- ✓ 4-in-1: Windows, Android, macOS and iOS protection
- ✓ Pure performance with no slowdowns
- ✓ Parental Control for your kids online safety
- ✓ Bitdefender VPN protects your privacy on all devices

- ✓ Detects ransomware-like behaviour and block its execution
- ✓ No unauthorized applications can access your webcam and microphone
- ✓ Secure online transactions, anti-theft & anti-loss tools

Best Protection. Best Performance.

Bitdefender	5.94
Kaspersky	5.90
Symantec	5.80
McAfee	5.11

Bitdefender	5.80
Kaspersky	5.74
Symantec	5.31
McAfee	5.14

Best Protection Against Infections[1] (on a scale of 0 to 6 and 6 being the highest protection). Overall Score. Bitdefender Internet Security. January 2011 - February 2019. AV TEST.

Lowest Impact on Performance[2] (on a scale of 0 to 6 and 6 being the lowest impact). Overall Score. Bitdefender Internet Security. January 2013 - February 2019. AV TEST.

Bitdefender protects its users' privacy, as well as their devices.
Our award-winning security technologies protect against all cyber-threats today, from annoying adware to dangerous malware that infiltrates to steal data, intercept online payments, spy, or hold your information for ransom.

Bitdefender®

Our continuing mission: to keep our users safe from digital dangers, to create industry-leading technology, and do all that while being absolutely easy to use. We took our technology one step further we made it smart and proactive. The best defense is to innovate.

Total protection for Windows, macOS, Android and iOS

Unbeatable malware detection

Optimized performance preserves speed and battery life

Anti-ransomware keeps your files safe

Multi-Layer Ransomware Protection

Bitdefender's multi-layered approach against ransomware includes a data-protection layer that safeguards your documents, pictures, videos, and music against any kind of ransomware attack. In conjunction with the Advanced Threat Defense module, it protects your most important files from encryption by ransomware.

Network Threat Prevention

The network-based adaptive layer of protection prevents exploitation of vulnerabilities in your system, detects and blocks brute-force attempts, prevents your device from being compromised in botnet attacks and prevents sensitive information from being sent in unencrypted form.
