

# Bitdefender<sup>®</sup> ANTIVIRUS PLUS

Supreme security, light on resources

Bitdefender Antivirus Plus packs the next-gen cybersecurity that won the “Outstanding Product” award from AV-Comparatives. It protects Windows PCs against all types of online threats, and includes privacy tools such as Bitdefender VPN and Bitdefender Safepay.

- ✓ Best protection against all threats<sup>(1)</sup>
- ✓ Performance without slowdowns for Fastest System Speed<sup>(2)</sup>
- ✓ Bitdefender VPN protects your privacy on all devices
- ✓ Detects ransomware-like behaviour and block its execution
- ✓ Prevent unauthorized changes to your most important files with Safe Files

## Best Protection. Best Performance.

Bitdefender	5.94
Kaspersky	5.90
Symantec	5.80
McAfee	5.11

**Best Protection Against Infections<sup>3</sup>** (on a scale of 0 to 6 and 6 being the highest protection). Overall Score. Bitdefender Internet Security. January 2011 - February 2019. AV TEST.

Bitdefender	5.80
Kaspersky	5.74
Symantec	5.31
McAfee	5.14

**Lowest Impact on Performance<sup>4</sup>** (on a scale of 0 to 6 and 6 being the lowest impact). Overall Score. Bitdefender Internet Security. January 2013 - February 2019. AV TEST.

Bitdefender protects its users' privacy, as well as their devices. Our award-winning security technologies protect against all cyber-threats today, from annoying adware to dangerous malware that infiltrates to steal data, intercept online payments, spy, or hold your information for ransom.

# Bitdefender®

Our continuing mission: to keep our users safe from digital dangers, to create industry-leading technology, and do all that while being absolutely easy to use. We took our technology one step further: we made it smart and proactive.

The best defense is to innovate.

## Total protection for Windows

## Unbeatable malware detection

Optimized performance  
preserves speed and battery life

Anti-ransomware  
keeps your files safe

## Multi-Layer Ransomware Protection

Bitdefender's multi-layered approach against ransomware includes a data-protection layer that safeguards your documents, pictures, videos, and music against any-kind of ransomware attack. In conjunction with the Advanced Threat Defense module, it protects your most important files from encryption by ransomware.

## Network Threat Prevention

The network-based adaptive layer of protection prevents exploitation of vulnerabilities in your system, detects and blocks brute-force attempts, prevents your device from being compromised in botnet attacks and prevents sensitive information from being sent in unencrypted form.

AV-COMPARATIVES | FEBRUARY 2019

"The suite impressed us with its clean, well-designed user interface and very sensitive real-time protection." <sup>o</sup>

	Antivirus Plus	Internet Security	Total Security
